About the College

Rani Anna Government College for Women, Tirunelveli was started in the year 1970 by the Government of Tamil Nadu. The college is affiliated to Manonmaniam Sundaranar University which educates women from socially downtrodden and economically deprived sections of the society. The college is situated at the outskirts of Tirunelveli on the Tenkasi Road nearby Manonmaniam Sundaranar University in a sprawling ground of 40 acres. At present the college is providing quality education through 15 UG departments, 13 PG departments, 4 M.Phil courses, 10 Research departments, five departments work on shifts and seven departments impart Higher Education through Tamil Medium too. The college is reaccredited with A by NAAC in the third cycle. The motto of the college is "Let the darkness of mind depart and rays of wisdom linger". The vision of the college is to impart literacy to students of economically backward, rural based and weaker sections of the society.

The Role of IQAC

Since quality enhancement is a continuous process in educational institutions, the IQAC will become a part of the institution's system and work towards realisation of the goals of quality enhancement and sustenance. The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the overall performance of institution. To achieve the goal of quality education, the IQAC of Rani Anna Government College for Women striving hard to bring out the talents of staff and students to fulfill its mission of spreading the light of higher education among rural poor students. As a mark of imparting research oriented education, the IQAC takes several measures. This workshop is arranged to create a depth insight of research methodology to narrow down the research aptitude among the budding research scholars.

Objectives of the Workshop

The objective of this programme is to provide a comprehensive view of fundamental areas of research methodology with a focus on identification of research problem to the stage of Multi Variate analysis with strong emphasis on software's used in data analysis of research.
